RECALIBRATING BELIEF SYSTEMS FOR SUCCESS

SPEAKER KIT 2025

Recalibrating belief systems for success with *Anthony Bonnici*

It's been proven time & time again. Small mindset changes can make massive changes in our behaviour & our results.

This is the core of what I do, and what I've helped hundreds of thousands of people implement over the past 20 years.

Together we can partner to help your team improve their performance & drive engagement, especially if they are experiencing:

- poor engagement & motivation
- lack of self-belief
- blame & low accountability
- uncertainty & fear
- difficulties dealing with change

A man in a dark suit and light shirt is speaking on a stage, gesturing with his hands. In the background, an audience is seated at tables, some looking towards the speaker. The scene is dimly lit, with a blue geometric overlay on the right side of the image.

I truly believe that we are all capable of doing much more than we think.

With 13 years experience in sales, marketing & people leadership roles in the pharmaceutical industry, and over 20 years running my own speaking business, I can speak with authority on how to improve your team's performance.

In addition to face to face selling for 4 years, I've turned "middle of the road" sales teams into high performing teams as well as leading marketing teams with brands worth over \$150 million.

In 2005 I left the corporate life to follow my dream of creating my own company to inspire and motivate others. I'm at ease speaking to any audience, and I am a certified NLP (Neuro Linguistic Programming) Master Practitioner.

Over the past 20 years building Move Mountains around the globe, I have worked with hundreds of thousands of people across 5 continents.

I've been "on stage" & performing since the age of 10, and my use of real life examples with which all audience levels can identify make my sessions unpretentious yet incredibly powerful & memorable.

KEYNOTE PRESENTATION

Brain Blinkers

What we hold true about ourselves, others & our situation will invariably & undeniably determine how we behave.

In a world of constant change in disruption, it is fundamental for people to have the skills to not only deal with change, but to lead it.

This unique program approaches the task by helping delegates unbridle themselves from old ways of thinking; to remove their mental barriers or “Brain Blinkers”.

After removing limiting beliefs, negative thoughts and fears around change, the participant is then ready to be armed with change leaderships tools and techniques to help them make and live the change they need both personally & professionally.

Your audience will learn:

- ♦ how to identify & remove barriers to success for themselves and others
- ♦ how to lead change for success
- ♦ practical tools that will help them professionally & personally

KEYNOTE PRESENTATION

Building Organisational Trust

Trust is at the heart of every relationship, whether it be business or personal in nature.

Leaders who can quickly and consistently build trust with others tend to have longer, stronger relationships than those who just focus on being liked.

This powerful session helps delegates define what real trust is all about, help identify why it's important to be trusted, and then explore Vanessa Hall's unique TRUST WALL to confidently build trust with whomever you want, whenever you like.

By focussing on building a core suite of trust skills, and working with everyone to manage expectations, meet human needs and deliver on our promises, this session helps people make small changes to drive dramatic results in human connection.

Your audience will learn:

- ♦ the characteristics of a trustworthy person & how to build that suite of skills
- ♦ how to build trust through meeting needs, managing expectations and delivering on promises
- ♦ to implement a practical & pragmatic tool to build trust every time

KEYNOTE PRESENTATION

INFLUENCING BROADLY

No matter your title, your experience, or your role within an organisation, it is fundamental to be able to influence others.

Everyone needs the ability to sell an idea, to get a project approved, to drive an outcome that is important to them.

This powerful program arms participants with modern influence skills that can be applied in any situation.

By focussing on building connection, providing value & demonstrating proof, we provide participants with skills that will have a huge impact on how they perform, and ultimately demonstrate that we can achieve & influence far more than we previously thought.

Your audience will learn:

- how to gain clarity on exactly what they want to influence
- skills in connecting, aligning & building trust
- how to deliver value through solutions-focus
- help people feel safe through lowering risk & providing proof

KEYNOTE PRESENTATION

BUILDING HIGH PERFORMING TEAMS

A high performing team will always out-perform a team of high performers.

This session is firmly aimed at teams that are not fulfilling their potential. Teams that know they are capable of so much more, but don't have the roadmap.

This session builds the roadmap and enables everyone to achieve what's possible.

By exploring Lencioni's 5 core dysfunctions of a team, and overlaying some practical, evidence-based ways of working with people of different personalities, this session will arm participants with all the necessary tools required to perform at their very best.

SPEAKER KIT 2025

ANTHONY BONNICI

Your audience will learn:

- ♦ how to implement practical strategies to address each of the 5 fundamental blocks to high performance
- ♦ core skills in working productively with different personality styles
- ♦ techniques and tools to “up their game” and bring their team with them
